White Frog Café

About *White Frog* Café

White Frog Café, nestled in Sylvan Lake, is a family venture born from a dream. Eight years ago, Kelly and Ronald established a flourishing coffee farm in Ronald's family land in Colombia. Their passion for coffee led them to this venture, blending Ronald's aspiration to emulate his great grandfather, Graciliano, as a farmer and businessman, with a commitment to community upliftment. By employing local family and neighbors and sourcing top-quality beans, they not only support the Colombian community but also bring the richness of their homegrown, freshly roasted coffee to Canada, fostering connections across continents
